
need a designer? look no further

Posted by jamesurrell - 2008/03/19 13:31

I have just finished my latest project and am currently looking for some new design work in either the men's or womenswear field's. I am able to design in most areas from couture across the board to urban and casual. If anyone has any need for a designer I'd be more than happy to look at your proposal and I can guarantee you will not be disappointed with the results

I look forward to hearing from you
