Have you heard of an organisation called NWtext - they are based in Mancheser I believe and they should be able to help you. I know recently they have been concentrating on Technical Textiles but the Director, Bill Mills, is well expereined and may have some ideas for you.

Why don't you put up a profile about yourself on this website and let us try and promote you?

All you need to do is send over a picture of yourself plus 200 words of who you are and what you want to do - a bit of CV really. Also send over some pictures or illustrations of your work and we will put those on to your profile. Send this information to tom@fashioncapital.co.uk and we will do the rest. This is great press and PR for you esepcially with so many internatioal people looking at the site before GFW.

If you have a large porfolio of work than send over some images of this work to vanessa@fashioncapital.co.uk and we will upload this on to the gallery section as well.

Not much in life is free so make the most of it and get your name out in industry by using the UKs number one fashion protal site www.fashioncapital.co.uk.

Regards

Jenny Holloway
Director

Hello, I am recent fashion graduate from Croydon higher education college. I am currently looking for work-placements in the fashion industry. I am particularly interested in working with the designing team as this is the area i want to look for work in.

Please can you let me know if there any current work-placement vacancies and what other ways can i look for experience.

Kind Regards
