Fashion and Costume Jewellery and Accessories

My company partners with exclusive brands and high street retailers to develop bespoke fashion and jewellery accessories. Established for over 19 years, we employ designers, craftsmen and metal workers to develop exclusive and beautifully crafted product that enhances and strengthens our clients' brands.

We work with a whole range of customers ranging from leading fashion designers to high street retailers and mail order businesses. Our approach offers an entire end-to-end service, from concept to finished product delivered to your warehouse.

If you are looking to develop a jewellery range that cohesively fits your product range and style, or if you are looking to improve your existing fashion jewellery range, please drop me a line at finbarr.doyle@billskinnerstudio.co.uk

have you considered giving Jewellery workshops...I am sure they would be very popular.

Have you contacted hayleigh@fashion-enter.com about selling your collection in our boutiques to provide a revenue stream for you?

Regards
